MEMORANDUM FOR THE RECORD

SUBJECT: Drug Abuse Among Agency Employees

25X1A

[REDACTED] came to see me at the direction of Mr. Coffey, and he is also to see Mr. Fisher for the same reason. He brought with him a paper from the Director of Security that had been made available to the DD/S. The paper advised that the Office of Security had learned that two of the individuals that had been recommended for termination were allegedly more deeply in the drug traffic business than ever. Both of these individuals have left the Agency in accordance with the termination recommendation. It should be noted that all of those recommended for termination have been so advised and have quietly accepted these decisions. One of the individuals recommended for suspension has decided to resign. Two of the individuals who were previously thought by the Office of Security to not be implicated now appear to be taking a more active role. It was understood that both of these cases will be investigated. [REDACTED] advises that the decisions on all of these cases have had a salutary effect in the Agency, and that the disposition decisions have informally filtered through various groups in a positive fashion.
